

Improve Data Protection with Wasabi and reevert

Back up to the Industry's Most Affordable Cloud Storage Service

Data growth is skyrocketing—doubling every year in many companies. Many businesses are struggling to protect data against ransomware, malware and mishaps. Replicating data to a secondary data center is an expensive undertaking, beyond the reach of most organizations. And backing up to tape is a slow and inefficient process that often leaves valuable business data unprotected.

Wasabi has partnered with reevert to help businesses improve data protection, mitigate risks and save money. Wasabi hot cloud storage is incredibly affordable and fast cloud object storage for any purpose. And reevert is a full featured backup and recovery appliance that streamlines data protection. The integrated solution lets you quickly and reliably back up all your vital business data to the cloud for ultimate economics and peace-of-mind.

Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi hot cloud storage is the industry's most affordable and highest-performing cloud storage service. Wasabi is 1/5th the price and 6x the speed of alternative cloud storage services like Amazon S3.

Specifically conceived to make cloud storage a commonplace utility like electricity, Wasabi hot cloud storage is easy to understand, easy to order and incredibly cost-effective to scale. With Wasabi there are no confusing cloud storage tiers to decipher and no complicated fee structures to decode.

Engineered for extreme data integrity and security, Wasabi provides eleven 9s object durability and supports configurable data immutability to protect against accidental deletions, ransomware and viruses. A parallelized architecture lets you rapidly move large datasets in and out of the cloud.

reevert Enables Fast And Reliable Backup And Recovery

reevert is a hybrid backup and storage solution specifically created to address the inefficiencies of traditional data protection products. The all-in-one solution serves as a file server and a backup appliance,

KEY FEATURES

- Fast, reliable and efficient backup and recovery
- Ultra-low-cost secondary cloud storage
- Durable storage for archival and compliance
- Seamless integration and operation

BENEFITS

- Reduce risk and exposure due to data loss
- Protect against equipment failures, disasters, human error, ransomware and malware
- Accelerate backup and recovery cycles
- Reduce cost and complexity
- Protect and extend previous investments

providing local and cloud backup capabilities, all managed through a common, easy-to-use web interface. You can also use reevert to protect data maintained on on-premises storage arrays.

reevert is engineered from the ground up for durability, speed and efficiency. Backups made with reevert cannot be corrupted or infected by ransomware or malware. Ultra-efficient hourly, daily, weekly and monthly snapshots let you recover from mishaps or malicious attacks in seconds. And on-the-fly LZ4 compression conserves disk space while accelerating disk I/O and backup performance.

reevert is available as a physical or virtual appliance to satisfy diverse scalability and budget requirements. Simple to deploy and administer, the reevert appliance can be installed and running in a matter of minutes.

Versatile Solution Supports Many Use Cases

With reevert you can take advantage of fast and cost-effective Wasabi hot cloud storage for a variety of purposes including:

- Secondary storage for backup or disaster recovery in the cloud
- Archival storage for compliance and long-term data retention
- Transitional storage for data migration initiatives

Next Steps

- **CONTACT WASABI TODAY** to learn more about how Wasabi and reevert can help you improve data protection and save money
- **TRY WASABI FOR FREE.** Get up to 1 TB for 30 days.
- **TRY REEVERT FOR FREE.** Get 1 TB of Wasabi hot cloud storage free for one year when you purchase a reevert subscription.

ABOUT WASABI

Wasabi is the hot cloud storage company delivering low-cost, fast, and reliable cloud storage. Wasabi is 80% cheaper and 6x faster than Amazon S3, with 100% data immutability protection and no data egress fees. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is on a mission to commoditize the storage industry. Wasabi is a privately held company based in Boston, MA.
