

Wasabi Direct Connect with Limelight Networks

Fast, Private Connectivity to the Industry's Most Affordable Storage Cloud

Wasabi is fundamentally transforming storage with the industry's lowest-priced and fastest-performing cloud storage service. Now you can bypass internet congestion and security vulnerabilities, and connect your enterprise network directly to Wasabi with [Limelight Networks](#), operator of one of the world's largest private global networks. Limelight and [Wasabi Direct Connect](#) provide extremely fast, reliable and secure connectivity for your bandwidth-hungry, delay-sensitive storage traffic.

Wasabi Hot Cloud Storage Delivers Breakthrough Economics

Wasabi hot cloud storage is incredibly affordable and fast cloud object storage for any purpose. Wasabi is 80% cheaper and up to 6x the speed of alternative cloud storage services like Amazon S3.

Specifically conceived to make cloud storage a commonplace utility like electricity, Wasabi hot cloud storage is easy to understand, easy to order and easy to scale. With Wasabi there are no confusing cloud storage tiers to decipher and no complicated fee structures to decode. One product, with predictable and straightforward pricing, satisfies virtually every storage application. A parallelized system architecture lets you efficiently move large datasets in and out of the cloud.

Limelight Provides High Capacity, High-Throughput Connectivity

Limelight Networks offers high-capacity connectivity to Wasabi, directly over a 100 GbE private fiber backbone, helping you avoid internet latency, bottlenecks and security pitfalls. The Limelight network is isolated from the public internet and provides high-speed connectivity between more than 80 Points of Presence (PoPs) covering every region of the world with connections to more than 900 ISPs and last-mile networks.

Unlike other providers, Limelight has developed and optimized its own software stack to deliver industry-leading performance over any connection type with a fully-integrated suite of software services. The Limelight network is inherently secure with global Web Application Firewall functionality and DDoS protection, and 100% TLS/SSL-enabled communications. The network is supported by a 24/7/365 global Network Operations Center (NOC) and backed by responsive service and support teams with field-proven experience.

KEY FEATURES

- Direct high-speed connectivity to Wasabi
- Performance-optimized, software-oriented network
- Integral WAF support and DDoS protection
- Massive footprint with 80+ PoPs worldwide
- 24/7/365 global NOC

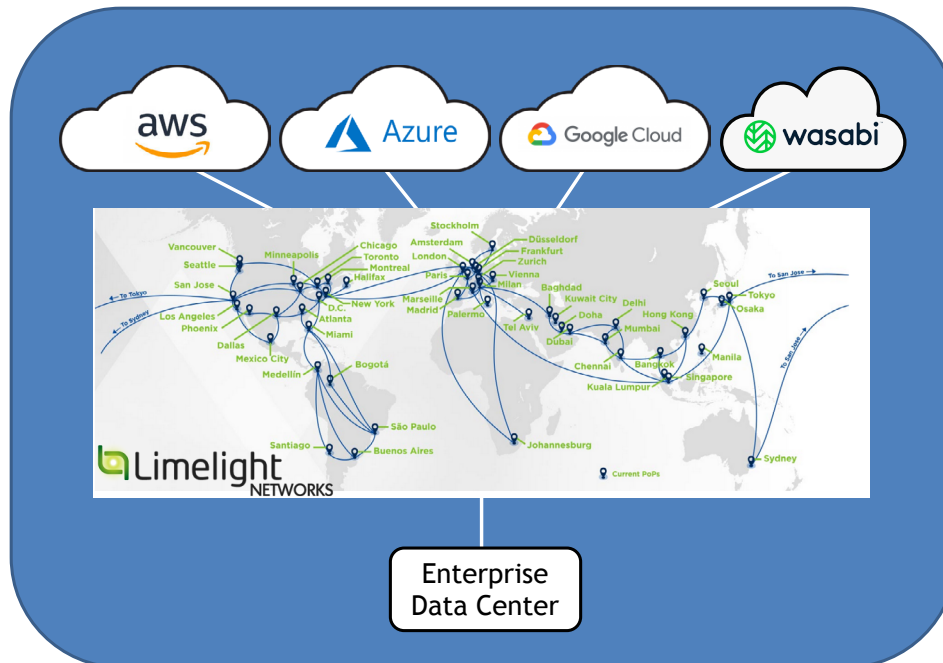

BENEFITS

- Consistent throughput and performance
- Low latency for faster storage read/writes
- High reliability, availability and data integrity
- Superior economics

Fast Connectivity for On-Premises or Cloud-Based Workloads

Limelight accelerates performance for a variety of Wasabi use cases. Use Wasabi for primary or secondary storage for on-premises applications and data. Limelight provides fast, one-hop connectivity from your data center to Wasabi.

Use Wasabi for low-cost storage for cloud-based workloads. Limelight offers high-speed, direct interconnects to leading IaaS and PaaS providers, including AWS, Microsoft Azure and Google Cloud Platform.

Limelight Provides Fast, Secure, Low-Latency Connectivity to Wasabi Hot Cloud Storage

ABOUT WASABI

Wasabi is the hot cloud storage company delivering low-cost, fast, and reliable cloud storage. Wasabi is 80% cheaper and up to 6x faster than Amazon S3, with 100% data immutability protection and no data egress fees. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is on a mission to commoditize the storage industry. Wasabi is a privately held company based in Boston, MA.
